From

The Director of Health
in Mysore, Bangalore.

The Secretary to Government,
Development Department, Bangalore.

Sir,

In forwarding herewith an estimate for Rs.53,500/- together with a report for the drainage scheme to Holenarsipur town, I have the honour to state that the estimate has been countersigned by the President, Town Municipal Council, Holenarsipur. He informs in his letter No.T.C.18-34 dated 16th November 1936 (copy enclosed) that the work may be taken up and completed in six years as per programme also enclosed and that necessary arrangements will be made to place a sum of Rs.4,125/- being the current year's Municipal contribution at the disposal of this Department.

I therefore request you to be so good as to obtain and convey early sanction of Government to the estimate.

As regards a grant from Government, no money is available during the current year.

OFFICE OF THE DEPUTY COMMISSIONER,
HASSAN DISTRICT

Dated Hassan, the 26th February *193*7.

From

ABDUL AZIZ KHAN, Esq, B.A.,
Deputy Commissioner, Hassan District

REV SECTT.
1 MAR 1937

To

M. Venkatanaranappa, Esq., B.A.,
Development Secretary to Government,
B a n g a l o r e.

Sir,

With reference to your letter No:L.5907/Ml.32-36 dated 10th-12th February 1937, forwarding the estimate for £ 53,500/- for the drainage Scheme to Holenarsipur Town and requesting me to suggest ways and means for financing the same from out of the funds of the Holenarsipur Town Municipality, I have the honor to state as follows:-

2. On receipt of the estimate from the Director of Health, the President placed the subject before the Municipal Council. They resolved at their meeting, held on 31st October 1936, that they were agreeable to work out the scheme in 6 years commencing from the current year, that a sum of £ 4125/- would be provided for during the current year, that Government might be moved to sanction half the cost of the scheme, and that a sub committee of the Council be constituted for considering the question of obtaining a loan from Government for the drainage and other Town Improvement Schemes, as the financial condition of the Municipality was not satisfactory.

3. The President countersigned the estimate and sent it to the Sanitary Engineer, with a copy of the resolution referred to above, and submitted a copy of this communication to me. In reply, he was asked to report how the quota of the Municipality

would be provided for during the current year. He reported stating that he discussed the question with the Sanitary Engineer on 26th November 1936, that the latter had stated that the estimate would be submitted to Government for sanction and that the work might be taken up next year. He also added that he would suggest ways and means for providing the Municipal quota after obtaining the Sub Committee's report.

4. As there was no provision in the current year's sanctioned budget to meet the Municipal quota of cost and as there was no scope either for reappropriating the required amount from sanctioned grants or for meeting the amount out of the closing balance, I returned the records to the President for resubmission after sanction of Government is obtained to the proposal to levy water rate and lighting tax in the Municipality.

5. The President has since applied for sanction to levy water rate and lighting tax and the records have been submitted to Government for orders with my letter No.C.2024-36, dated 19th February 1937.

6. I have asked the President to resubmit the records relating to the Drainage Scheme after sanction is accorded to the levy of water rate and lighting tax, with a clear report as to how the Municipal quota of cost would be provided for next year. On receipt of his reply, I will send up the report called for.

7. The estimate, plan and the report accompanying the estimate received with your letter under reply have been sent to the President, Holenarsipur Town Municipal Council, for necessary action.

I have the honor to be,
Sir,
Your most obedient servant,

Treasury Assistant-Commissioner
For Deputy Commissioner,
Hassan District.
(absent on tour)

HOLENARASIPUR MUNICIPAL ADDRESS TO THE DEWAN

Replacing the existing oil engine used for pumping water by an electric pump

Replacing the pipes of the present water supply system by those of larger diameter

---

The Municipal Council pray for a grant of Rs 6,000/- during the current year towards the above two schemes No proposals have been received so far in the matter from the Municipal Council The water supply grant for the current year has been fully allotted and there is no balance available The question of a Government grant may perhaps be considered in due course on receipt of specific proposals on the subject, along with the necessary estimates

Increasing the Government contribution towards the water supply scheme from one-third to one-half

---

The Municipal Council pray that the Government contribution towards the expenses incurred on the water supply scheme may be increased from one-third to one-half, as the financial position of the Municipality is such that it is unable to pay the annual instalments towards repayment of the loan advanced by Government amounting to two-thirds of the cost of the scheme

The estimate for the water supply scheme was sanctioned for Rs 54,280/-, one-third of the estimated cost (Rs 18,000 being met by Government To enable the Municipality to meet its share of the cost, a loan of Rs 40,000/- was sanctioned to the Municipality, subject to repayment in 15 equal annual instalments, at 5½% interest It is doubtful whether the proportion fixed for the Government share of the cost can now be changed In case this is done it would perhaps become a very inconvenient precedent The financial condi-

of the Municipality is not however satisfactory In view of the pressing low rate of interest whether some relief may not be given to the Municipal Council by reducing the rate of interest by one per cent or so may perhaps be examined

Drainage scheme - The Municipal Council pray that the scheme may be sanctioned An estimate for Rs 53,500/- for the work has been submitted by the Director of Health for the sanction of Government It is prayed by the Municipal Council that half the estimated cost may be met by Government The matter is under correspondence with the Deputy Commissioner, Hassan District, who has promised to send up a report as to how the Municipal Council will meet its quota of the cost

Town Improvement works - The Municipal Council request that a Government grant of Rs 2000/- may be sanctioned for the purpose out of the Town Improvement Grant The question may be considered when proposals from the Director of Health are received for the distribution of the Town Improvement Grant for the next year, in consultation with the Deputy Commissioners of Districts No funds are available during the current year

Construction of houses for the accommodation of Government Officers - The question may be examined on receipt of definite proposals from the Municipal Council in the matter It is understood that this general question is also under examination in the Public Works Secretariat

Diverting the Hassan-Holwal Road - No reference has been received here in the matter so far The question will be examined in consultation with the Hassan District Board on receipt of the Municipal Council's proposal in the matter, as this is a District Fund Road

Reduction of the guaranteed amount due to the Electrical Department -

No communication has been received on the subject in this Branch The matter is one, which has to be dealt with in the Electrical Secretariat

To

P H , Krishna Rao, Esq , M A ,
Secretary to Government,
L S G Department, Bangalore

Sir,

With reference to your letter No L 1026 dated 28th July 1937, re the Drainage Scheme for Holenarsipur Town, I have the honor to invite your kind reference to my letter No L Dis C 2589-36 dated 26th Feby 37 on the subject addressed to the Development Secretary to Government and to state as follows -

2 As already reported in my letter, referred to above, the President, Holenarsipur Town Municipal Council was requested to resubmit the estimate for the Drainage Scheme after obtaining sanction of Government to the levy of Lighting and Water Taxes, and to point out ways and means for providing the Municipal share of cost

3 The President reported that Government had sanctioned the levy of the two taxes referred to above, in their Order No L 7170-71/M1 68-38-731, dated 2nd/6th April 1937, that the annual income of ₹1078/- from the lighting tax could be ear-marked for the drainage scheme, and that the Sanitary Engineer, who visited Holenarsipur, on 21st June 37, opined that the cost might be reduced by retaining the existing drains wherever possible The President further requested that sanction of Government might be applied for to the Scheme, after consulting the Sanitary Engineer

4 I have, accordingly addressed the Sanitary Engineer in the matter and am awaiting his reply I have also called for a report

from the President, Holenarsipur Town Municipal Council as to how the Municipal quota of cost (₹4125/-) would be provided for during the current year. His report has not yet been received. I have this day reminded both these officers and on receipt of their replies, the report called for by Government will be furnished.

I have the honor to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Hassan District.

ABDUL AZIZ KHAN, Esq, BA,
Deputy Commissioner, Hassan District

To

P. H. KRISHNA RAO, Esq., M.A.,
Secretary to Government, Local Self Government
Department, Bangalore

Sir,

With reference to your letter No.L 6443 dated the 26th January 1938, re the Drainage Scheme for Holenarsipur Town, I have the honour to state as follows -

2 The Sanitary Engineer, Bangalore, who was addressed in the matter, sent a fresh estimate for Rs.40,160/- to the President, Holenarsipur Town Municipal Council and intimated the fact to this office

3 The President having referred the matter to the Managing Committee of the Municipal Council, they resolved at their meeting held on the 28th November 1937, that the scheme be worked out in 10 years, that Government be requested to sanction a grant-in-aid of Rs 2,038/- per annum and that a like sum might be provided out of Municipal Funds by earmarking a sum of Rs. 1,078/- from the income from Lighting Tax and a sum of Rs 930/- from the income from water tax The Municipal Council, before whom this resolution was placed, resolved at their meeting, held on 30th November 1937, that they approved the resolution of the Managing Committee and that the estimate be countersigned

4 Accordingly, the President countersigned the estimate and submitted copies of the above resolutions to this office and requested sanction thereto As the Municipal Council had guaranteed a revenue of about Rs.12,000/- to the Electric Department on account of the Electrification Scheme, and as the President had not furnished information re the actual income realized by that Department from the date of introduction of that schme

in the town, he has been requested to furnish this information. He had submitted an ad interim report to the effect that he had called for the information from the Electric Department. This report was returned calling for his final report. On receipt of, the feasibility of earmarking the income from Lighting Tax the Drainage Scheme will be examined and a report sent to Government.

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Hassan District.

SECY LOCAL SELF GOVT
7 FEB
DEPUTY

In continuation of my letter of even number dated the 31st January 1938, re. the drainage scheme for Holenarsipur, I have the honour to state as follows.-

2. The President, Holenarsipur Town Municipal Council, who had been addressed in the matter, has since submitted a statement showing the income derived by the Electric Department from 1-9-36 to 31-12-37. It is seen therefrom that the Department has realized during the above period, a sum of Rs.8,499-9-0 as detailed in the margin This works out to Rs.6,375/- per annum on the average. The Municipal Council have guaranteed a revenue of Rs.10,640/- to the Electric Department, and so the income so far derived by the Department results in a deficit.

1. House Connections ..	Rs.4,088-1-0	
2. Street Lighting ..	3,504-6-0	
3. Industrial Installations	907-2-0	
Total Rs.	8,499-9-0	

3. The proposal of the Municipal Council is that Government might be pleased to sanction a grant in aid of Rs.2,008/- annually for 10 years, and that they would meet a like sum annually by ear-marking a sum of Rs.1,078/- out of the income from lighting tax and a sum of Rs.930/- out of the income from house-connection fees. As the Electric Department have not been realizing the revenue guaranteed by the Municipal Council, it is not possible to ear-mark the income from lighting tax. The Municipal Council have to pay an annuity of Rs.3,986/- towards the loan for the water supply scheme and the proposal to instal the Electric pumping set and to extend the pipe lines to some interior parts of the

the town which are equally urgent have not been taken up for want of funds. The financial position of the Municipality is not satisfactory.

4. In these circumstances, I think that the question of taking up the drainage scheme has to lie over till the Electric Department realizes a revenue equal to the amount guaranteed by the Municipal Council and the financial position of the Municipality improves.

5. I have therefore returned the estimate and the connected records to the President, Holenarsipur Town Municipal Council.

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Hassan District.
